

PRECISION IN EVERY ALLOY

NOW YOU HAVE THE RIGHT STEEL TO MAKE A BETTER WORLD.

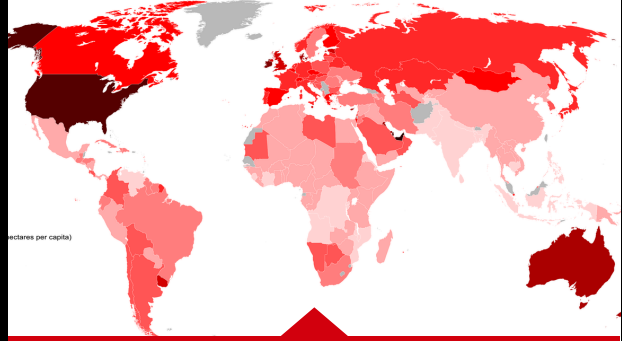

Two decades of unmatched strength,
safety, and success in stainless steel
manufacturing.

ON TRUST.**

THE ACIER LEGACY & TEAM

For over twenty years, Acier Alloys has been the quiet strength behind the industries that keep the world moving. Technology melts the iron, but our people forge the steel. Backed by an immensely strong team with decades of metallurgical expertise, we transform raw elements into the flawless long products

**MODERN
INFRASTRUCTURE**

GLOBAL FOOTPRINT

Our commitment to excellence knows no borders. From our advanced manufacturing hub in Gujarat, we export premium stainless steel long products to the most demanding markets across the globe, adhering strictly to international ASTM, DIN, EN, and JIS standards.

**MADE IN INDIA. TRUSTED
WORLDWIDE.**

**WE EXPORT PREMIUM
STAINLESS STEEL LONG
PRODUCTS**

**INTERNATIONAL ASTM, DIN, EN,
AND JIS STANDARDS.**

RAW POWER

HOT ROLLED ROUND BARS

The backbone of heavy engineering. Designed for robust forging, heavy construction, and extreme structural applications where raw strength is the only metric that matters.

BRIGHT ROUND BARS

Cold-finished to absolute perfection. Peeled, reeled, or ground for a mirror-like surface finish and ultra-tight tolerances. When automated machining requires zero friction, this is your steel.

FLAWLESS FINISH

PSQ BARS

Pump Shaft Quality (PSQ): Manufactured with extreme precision to guarantee crack-free surfaces, perfect straightness and tolerances upto h6 preventing vibration in Critical Applications

FLAWLESS FINISH

FORGED BARS

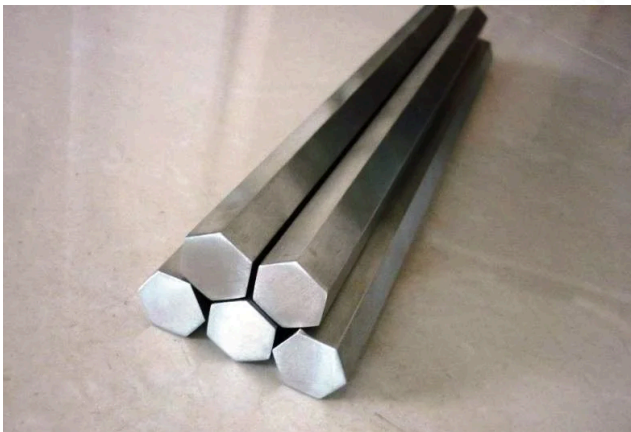

Forged Round Bars: Delivering a superior internal grain structure for maximum impact strength in heavy engineering and automotive shafts.

MAXIMUM STRENGTH

THE MACHINIST'S CHOICE HEX & SQUARE BARS.

Unmatched straightness
and razor-sharp corners.

**DESIGNED SPECIFICALLY FOR
HIGH-SPEED AUTOMATED
MANUFACTURING OF NUTS,
BOLTS, AND SPECIALIZED
FITTINGS.**

**THE RELIABLE FRAMEWORK FOR
GENERAL ASSEMBLY AND
MANUFACTURING EQUIPMENT,
DELIVERING ROBUST SUPPORT WITH
A CLEAN, POLISHED AESTHETIC.**

THE ANATOMY OF STRENGTH (MATERIAL GRADES)

ALLOY STEEL

**303, 304/L/H, 316/L/H, 310, 316TI,
317, 321, 347, 410, 416, 420, 420B,
430F, 431, 17-4PH, 15-5PH, 2205,
4140, C45, EN8, EN24, F11, F22, F91**

MATERIAL GRADES

INFRASTRUCTURE & VALUE ADDITION

We don't just roll steel; we temper it for perfection. Our in-house heat treatment (Annealing, Solution Annealing, Hardening) ensures your exact mechanical properties are met, while precision peeling lines deliver a flawless final profile.

THE ZERO EXCEPTION RULE

Comprehensive in-house testing, including rigorous ultrasonic inspection and strict radioactive contamination screening on all raw materials.

**TENSILE
HARDNESS TESTING**

**ULTRASONIC TESTING
MPI
RA**

**PMI (POSITIVE MATERIAL
IDENTIFICATION)
SPECTROMETERS
RADIOACTIVITY**

CERTIFIED PRECISION IN EVERY BATCH

Production line cannot afford material failures. That's why the we conducts 100% testing on all our hot rolled, forged, and bright products. Backed by our ZED Bronze, ISO, and PED certifications

ISO - CERTIFIED
9001 : 2015
14001 : 2015
45001 : 2018

**ZED BRONZE
 CERTIFIED &
 CBAM CERTIFICATE**

**PED CERTIFIED
 CE - CPR CERTIFIED
 BIS CERTIFIED**

CORPORATE SOCIAL RESPONSIBILITY

We take voluntary actions take to make a positive contribution to society.

Let's Build Something
Enduring.

Partner with Acier Alloys
for steel that stands the
test of time. Reach out to
